This came from a FaceBook group I belong to. Perhaps you might want to look into similar training for CENTRL.
The Implicit Bias training was run by Dr. Bryant T. Marks (bio - https://www.linkedin.com/in/bryant-t-marks-ph-d-0b57433/) who does trainings with groups everywhere and he was INCREDIBLE. And as a part of that training we took the Implicit Association Test (IAT) through the Project Implicit out of Harvard (https://implicit.harvard.edu/implicit/takeatest.html) which I believe is free. The Microagressions training was internal. Given the importance of anti-racism work nowadays, I bet there are other online resources that are free, or reduced cost. Hope this helps!
