

CENTRAL REGIONAL CONNECTION

Whiteriver, AZ

OCTOBER 7TH & 8TH

Many might know the Whiteriver area as a recreational haven for those that enjoy some of Arizona's most scenic outdoor spaces. However, many may not know or get to experience the values that this community shares in serving their neighbors. The Arizona Center for Rural Leadership, in partnership with this community invites YOU to visit for a chance to meet and hear from key voices that service community members in need. This hunger-focused seminar is designed to show attendees the resources that many community members need in times of food stress. Join us this October for National Hunger Awareness Month to learn how you can better support those in your community.

One of nine Arizonan's don't know where their next meal is coming from.
